About Whelen

Whelen revolutionized emergency warning technology with the invention of the first rotating "anti-collision" beacon in 1952. Today, Whelen continues to push the boundaries of innovation with reliable and powerful lights, sirens, control systems, and software. We produce a wide range of European certified products that conform to UNECE Regulation 5 and Regulation 10.

Whelen encompasses two state-of-the-art facilities in Connecticut and New Hampshire, with over 750,000 square feet of engineering and manufacturing space. Whelen's 1,500 employees are committed to creating products that enhance first responder and civilian safety the way only Whelen can. With quality as our foundation, we celebrate innovative engineering in every product we produce.

Tech Glossary

BroadBand Blue™

BroadBand Blue delivers a higher intensity, creates a larger optical image, and produces a more consistent color, all while being easier on the eyes - especially at night.

Conformal Coating

A thin material that conforms to the contours of the PCB to protect the electronic components from harsh environments and impact.

DUO™

Two color interleaved

DUO+™

Two color interleaved with independent control of color one and color two

DYAD™

Two level technology

Encapsulated

Lighthead are fully encapsulated for moisture and vibration resistance.

Hard-Coat

Our industry-first innovative Hard-Coating process counteracts the effects of environmental and chemical damages to our lenses and domes.

Low Current

Low current function wires require less than ¼ an amp to operate, allowing for simple operation of each lightbar function.

Proclera® Silicone Optics

Whelen's innovative and efficient solution to distorted optical shape and fringe lighting. Proclera Optics feature 100% internal silicone optic technology, an increased ability to harness LED output and better direct and focus light, and a full-fill Square TIR optic to increase optic efficiency compared to a conventional circular TIR.

Rota-Beam™

Solid-state "rotating" technology, simulating the appearance of a rotating beacon without any moving parts or motors for long-life reliability.

Scan-Lock

Whelen's advanced method of changing a products flash pattern. Scan-Lock utilizes an external wire to allow the user to cycle through the entire range of flash patterns, allowing for full customization.

Scan-Lock+

The Scan-Lock+ app is the simplest way to change Whelen flash patterns. Designed for optimal convenience, Scan-Lock+ features an easy to use interface and utilizes a Bluetooth connection. Download the Scan-Lock+ app and browse, test, and assign Whelen flash patterns right from your phone.

SOLO™

Single color

Split

Two color lighthead where each color fills half of the reflector

Standard Current

Lightbar functions are wired directly to the switching device and require switches that are matched to the current draw of the desired functions to be activated.

Super-LED®

Whelen's innovative LED technology

Sync

Sync provides the ability to connect multiple Whelen devices to flash together or in alternating patterns. Products with this capability allow the user to create coordinating flashing schemes.

TRIO™

Three color interleaved with independent control of color one, color two, and color three

WeCad™

Engineered for optimal accessibility, WeCad lightbar designer delivers the ability to design custom Whelen lightbars with every available option. Adding R65 compliant options is simple, and a bill of materials will be generated to make ordering fast and easy.

WeCAN

Whelen's proprietary CAN based communication system

Interior Lights

Avenger® II Series

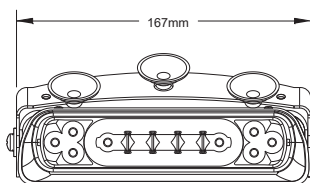

Features

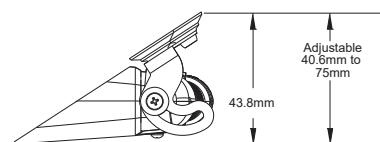

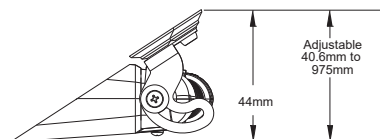

- Combination Linear/TIR LED optics
- Available in SOLO™, DUO™, or TRIO™ models
- Polycarbonate housing
- Solid-state electronics
- Conformal coated electronics
- Models include 3m cord with cigar plug with On/Off switch and Scan-Lock™ flash pattern switch

Avenger II Dual Series

Avenger II Single Series

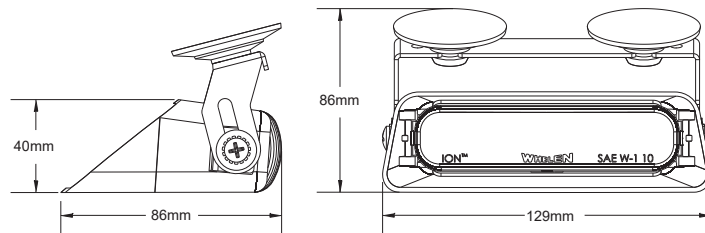

SpitFire™ ION™ Series

Features

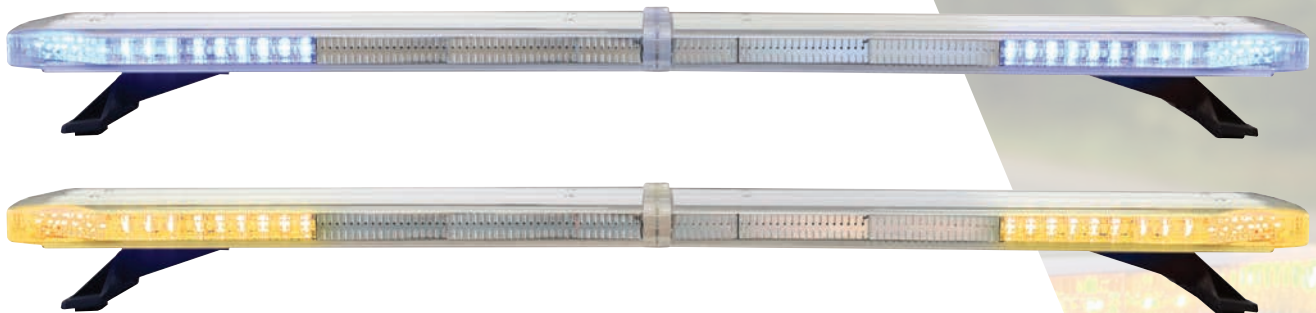

- ▶ Super-LED® Optics
- ▶ Polycarbonate housing
- ▶ Solid-state electronics
- ▶ Conformal coated electronics
- ▶ Hard-coated lenses
- ▶ Models include 3m cord with cigar plug with On/Off switch and Scan-Lock™ flash pattern switch

Lightbars

Legacy® Series

Features

- ▶ Available in SOLO™ and DUO+™ models
- ▶ Advanced Thermal Design improves LED performance during extended operation
- ▶ Aluminum top repels hail and other environmental damages
- ▶ Extruded aluminum platform
- ▶ Center dividers with Liquid Injection Molded seals protect internal components from water intrusion
- ▶ One piece UNI-DOME construction with a single sealing point assures lightbar integrity in all weather conditions
- ▶ Proclera® Silicone Optics (available in take-down lights)
- ▶ Hard-coated domes
- ▶ Available with Clear or Smoked domes
- ▶ Consult WeCad™ for available options
- ▶ R10 only version available

Tracer™ Series

Features

- ▶ Available in SOLO™, DUO™, or TRIO™ models
- ▶ Traffic Advisor™ included in 4-6 lamp versions
- ▶ Encapsulated, water resistant control module for exterior or interior installation
- ▶ Cruise light control includes seven adjustable intensity levels
- ▶ Hard-coated lenses
- ▶ Lighthead array features an easily serviceable clamshell design

Mini Lightbars

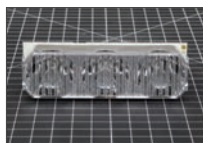

Mini Cenator™ Series

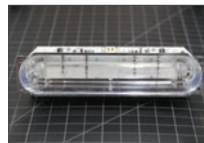

Features

- ▶ Available in SOLO™
- ▶ Advanced Thermal Design improves LED performance during extended operation
- ▶ Aluminum top repels hail and other environmental damages
- ▶ Extruded aluminum platform
- ▶ Center dividers with Liquid Injection Molded seals protect internal components from water intrusion
- ▶ One piece UNI-DOME construction with a single sealing point assures lightbar integrity in all weather conditions
- ▶ Proclera® Silicone Optics (available in take-down lights)
- ▶ Hard-coated domes
- ▶ Available with Clear, Smoked, or color domes
- ▶ Permanent mount features a low profile mounting kit
- ▶ Magnetic mount includes 40.8 kg pull magnets

Features

- ▶ SOLO models available in single or split colors
- ▶ DUO and TRIO models feature Linear-LED® optics
- ▶ Hard-coated lenses
- ▶ Available with Smoked lenses
- ▶ R10 only version available

ION Surface Mount

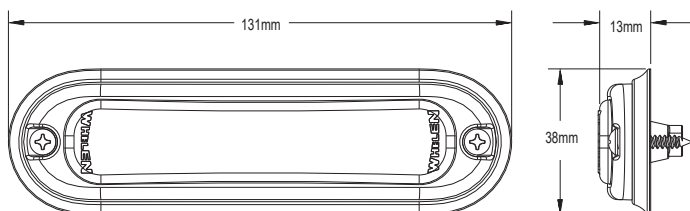

ION Universal Mount

ION™ T-Series™

Features

- ▶ Linear Super-LED® optics
- ▶ Available in SOLO™ or DUO™ models
- ▶ SOLO models available in single or split colors
- ▶ Hard-coated lenses
- ▶ Easily surface mounts with two screws
- ▶ Includes Black flange
- ▶ Available with Smoked lenses
- ▶ R10 only version available

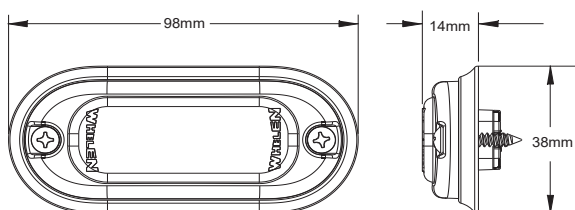

ION Mini T-Series

Features

- ▶ Linear Super-LED optics
- ▶ Hard-coated lenses
- ▶ Easily surface mounts with two screws
- ▶ Includes Black flange
- ▶ Available with Smoked lenses
- ▶ R10 only version available

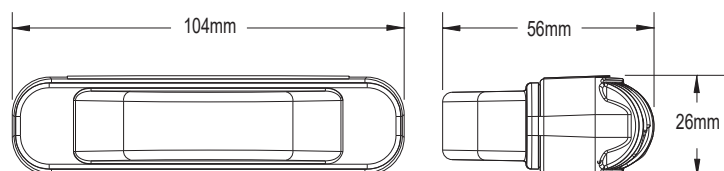

ION™ V-Series™

Features

- ▶ Available in 3-in-1 combination warning, spotlight, and ground illumination light or in single color warning only models
- ▶ Single color models have combination 180° and TIR directional warning
- ▶ Black, White, or Chrome housing
- ▶ Hard-coated lenses
- ▶ Available with Smoked lenses
- ▶ R10 only version available

Features

- ▶ Available in single or split colors
- ▶ Available with Clear or color lenses
- ▶ Available in steady-burn or with an internal flasher
- ▶ Hard-coated lenses
- ▶ Surface mounts via two screws for easy installation
- ▶ A variety of mounting brackets and optional Chrome or Black flanges are available
- ▶ R10 only version available

M Series

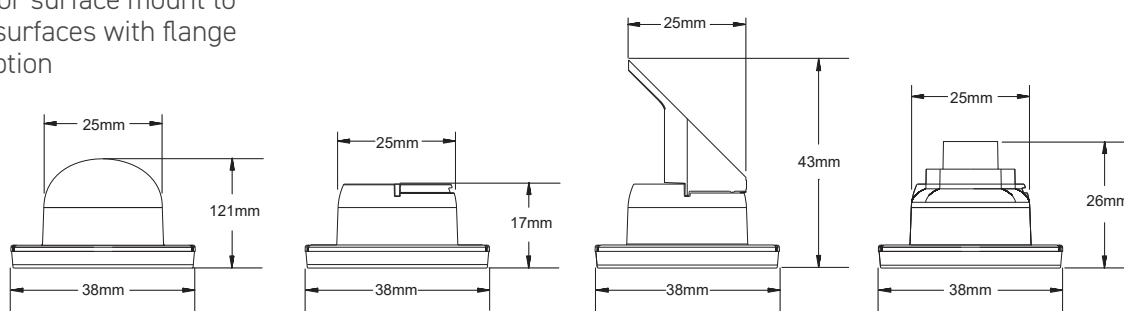

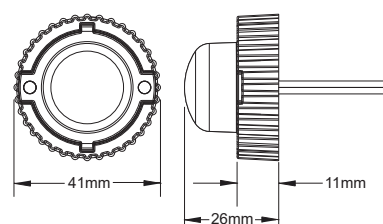

Vertex™ Series

Features

- ▶ Self-contained light with in-line lamp driver
- ▶ Available as an omni-directional, side emitter, or directional lighthouse
- ▶ Designed to mount in composite style headlight or taillight, or surface mount to exterior surfaces with flange mount option
- ▶ Fully encapsulated
- ▶ Hard-coated lenses
- ▶ Clear outer lens, color LEDs
- ▶ Available with Smoked lenses
- ▶ R10 only version available

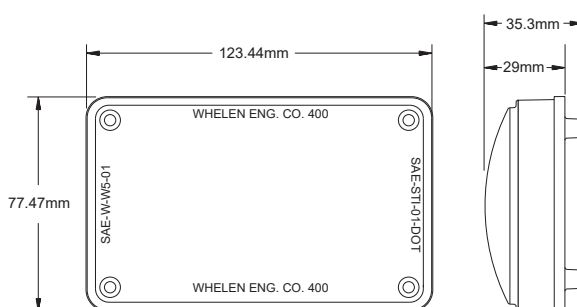

400 Series

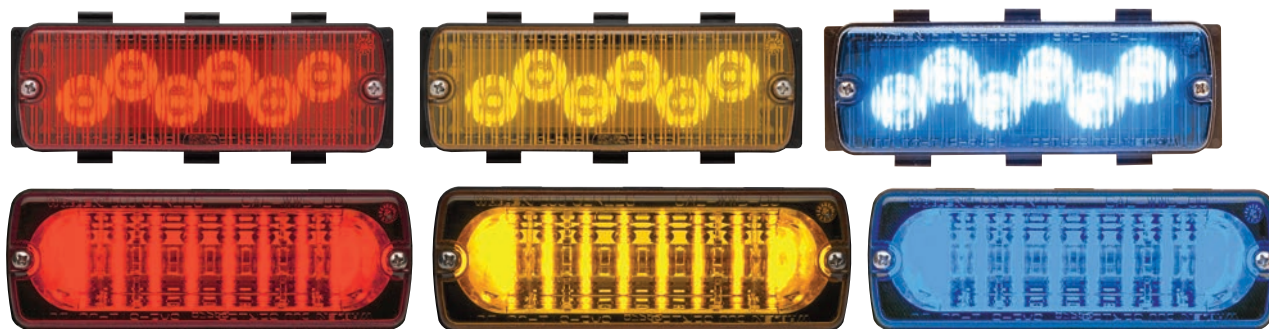

Features

- ▶ Linear Super-LED® available in single or dual level warning
- ▶ Fully encapsulated
- ▶ Hard-coated lenses
- ▶ Available with Clear or color lenses
- ▶ Consult current price list for required mounting hardware

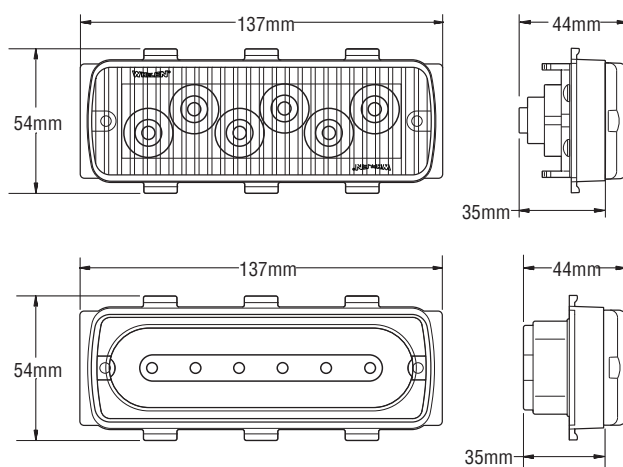

500 Series

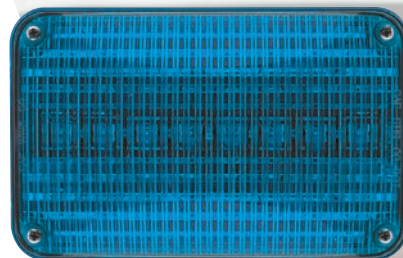

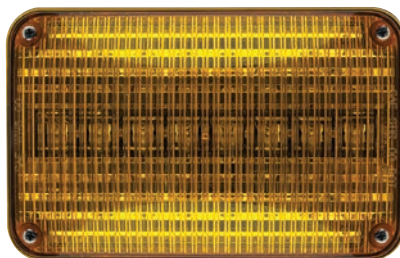

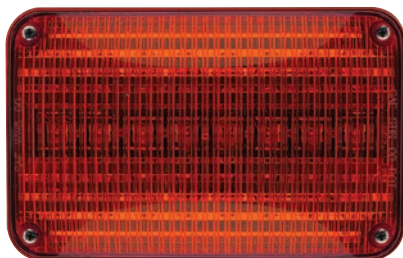

Features

- ▶ Available with Linear Super-LED or TIR6™ optics
- ▶ Fully encapsulated
- ▶ Hard-coated lenses
- ▶ Available with Clear or color lenses
- ▶ Consult current price list for required mounting hardware

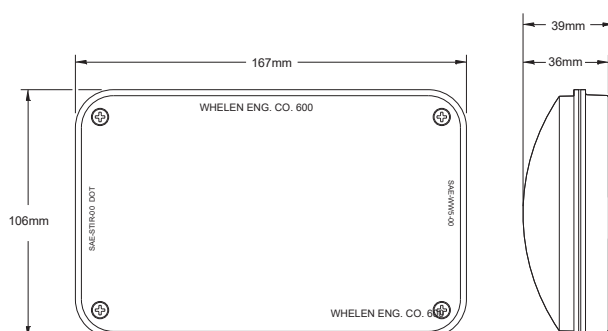

600 Series

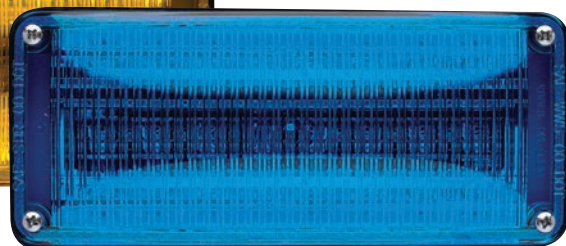

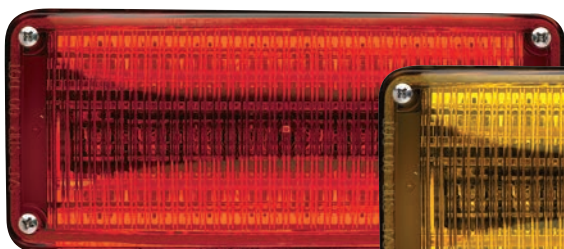

Features

- ▶ Linear Super-LED®
- ▶ Surface mount
- ▶ Available with Clear or color lenses

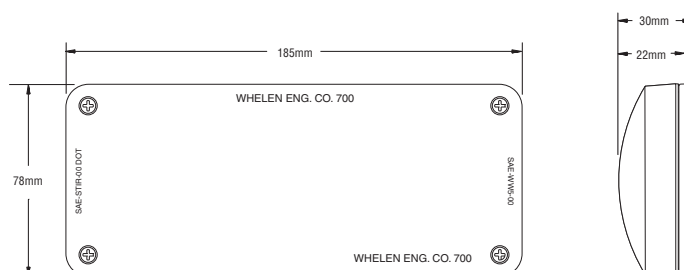

700 Series

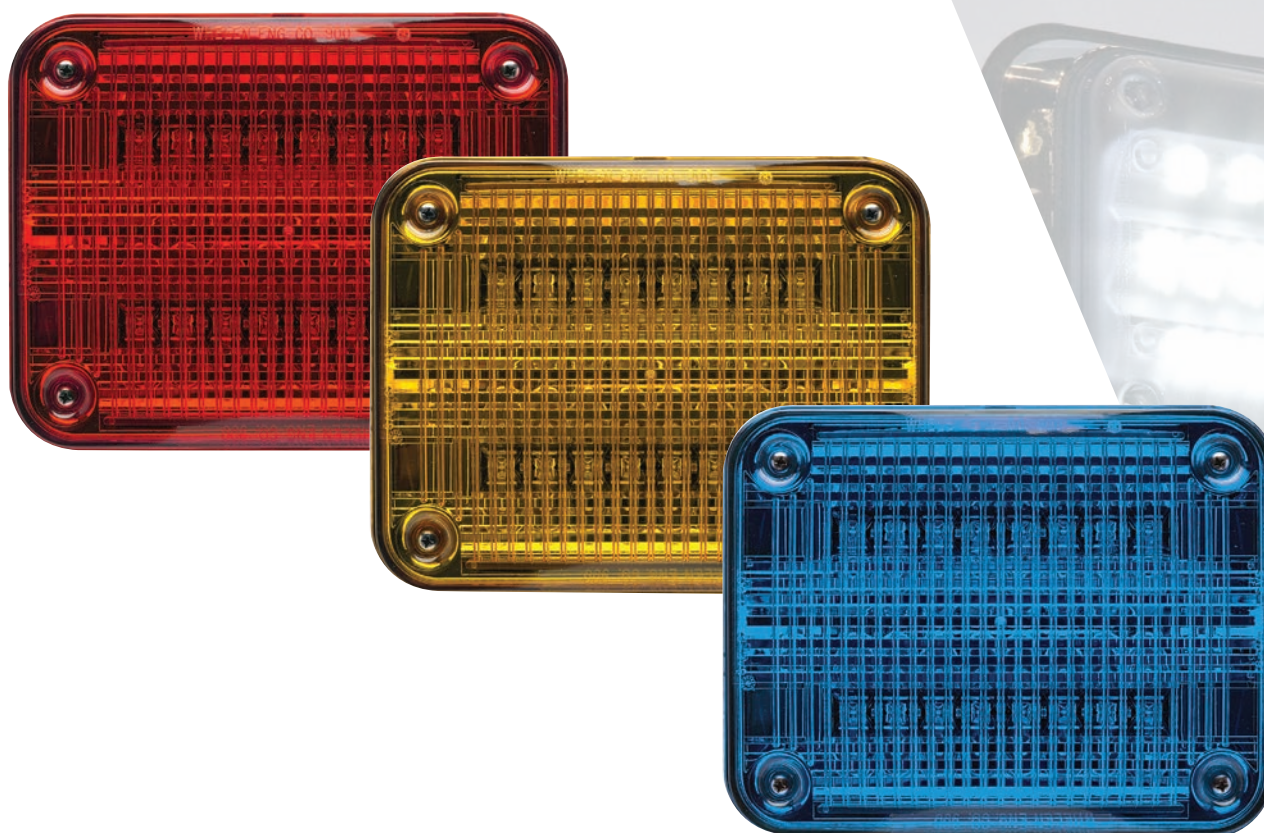

Features

- ▶ Linear Super-LED
- ▶ Surface mount
- ▶ Available with Clear or color lense

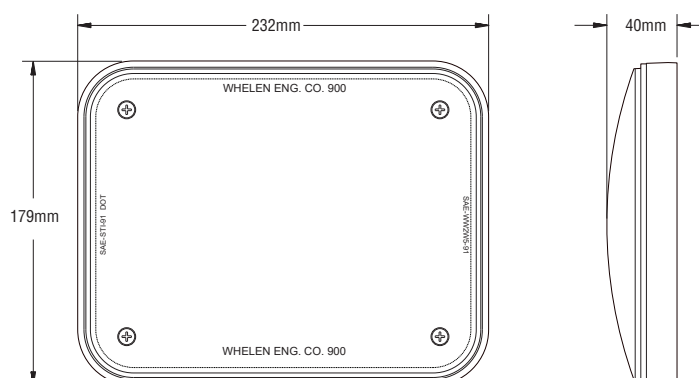

900 Series

Features

- ▶ Linear Super-LED®
- ▶ Surface mount
- ▶ Available with Clear or color lenses

Illumination Lights

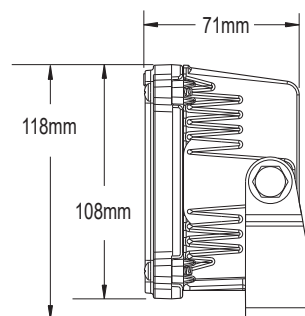

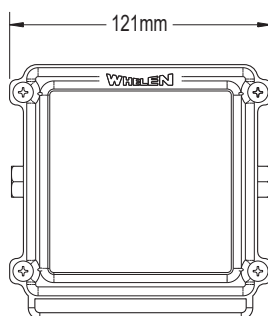

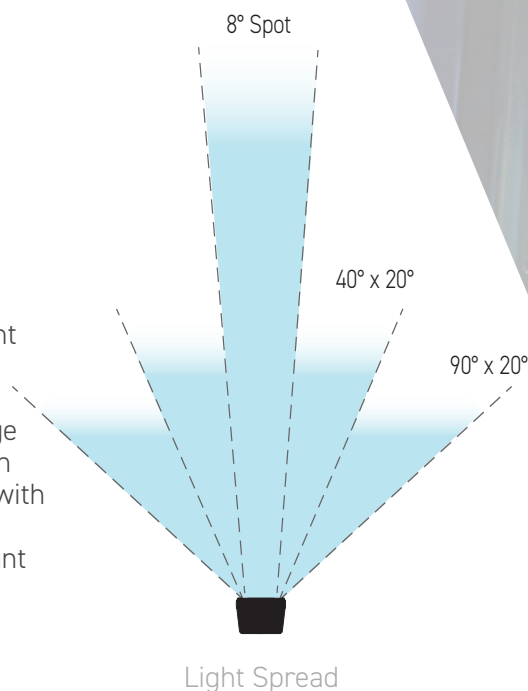

Pioneer Micro™

R10 **5YR** **12** **24** **IP67**

Features

- ▶ 8° spotlight pattern comes standard. Includes three additional optic lenses for a light pattern choice of:
 - 90° x 20° wide flood
 - 40° x 20° standard flood
 - 40° x 8° narrow flood
- ▶ Optic lens changes easily via removable lens retainer
- ▶ Injection molded polycarbonate lenses are impact resistant and hard-coated
- ▶ Die-cast aluminum powder-coated housing in Black or White
- ▶ Solid-state electronics
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Includes 1,830mm cable
- ▶ Five mounts available:
 - Powder-coated stainless steel bail bracket with 9.53mm stud carriage bolt mount
 - Recessed 90° angle mount with Chrome flange
 - Recessed 15° angle mount with Chrome flange
 - Pole/pedestal mount with handle available with or without On/Off switch
 - Low profile pedestal mount available with Chrome or Black back cover, with or without On/Off switch

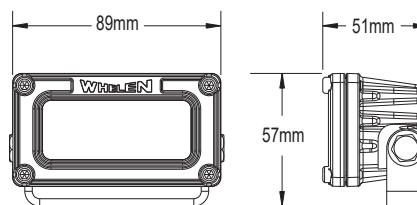

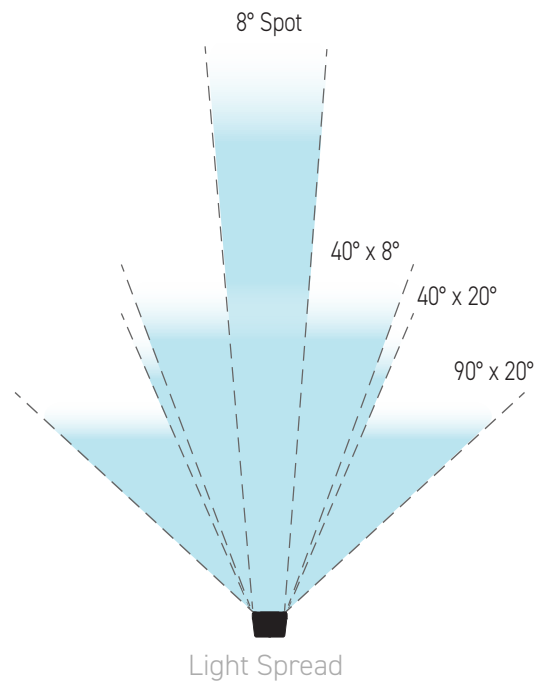

Pioneer Nano™

R10 **5YR** **12** **24** **IP67**

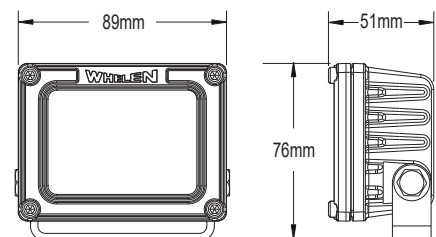

Features

- ▶ 8° spotlight pattern comes standard. Includes additional optic lens for a light pattern choice of:
 - 40° x 20° flood
- ▶ Optic lens changes easily via removable lens retainer
- ▶ Injection molded polycarbonate lenses are impact resistant and hard-coated
- ▶ Die-cast aluminum powder-coated housing in Black or White
- ▶ Solid-state electronics
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Includes 1,830mm cable
- ▶ Powder-coated stainless steel bail bracket with 9.53mm stud carriage bolt mount

Nano 3

Nano 6

Pioneer SlimLine™

R10 5YR \lesseqgtr 12 \lesseqgtr 24 IP67

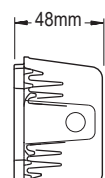

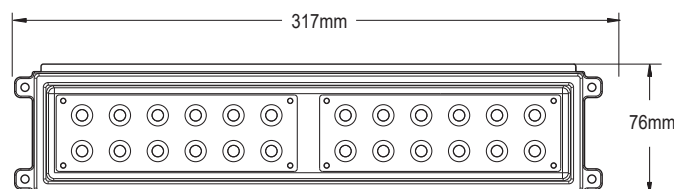

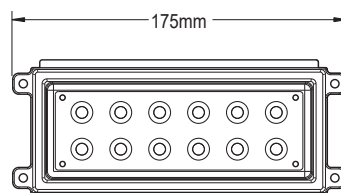

Features

- ▶ Available in single or dual models
- ▶ Single Lamp Models - 8° spotlight pattern comes standard. Includes additional 40° x 20° flood lens
- ▶ Dual Lamp Models - 8° spotlight pattern comes standard. Includes two additional optic lenses for a light pattern choice of:
 - Dual 40° x 20° flood
 - 8° spot and 40° x 20° flood
- ▶ Optic lens changes easily via removable lens retainer
- ▶ Injection molded polycarbonate lenses are impact resistant and hard-coated
- ▶ Die-cast aluminum powder-coated housing in Black or White
- ▶ Solid-state electronics
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Includes 1,830mm cable
- ▶ Powder-coated stainless steel bail bracket

8° Spot

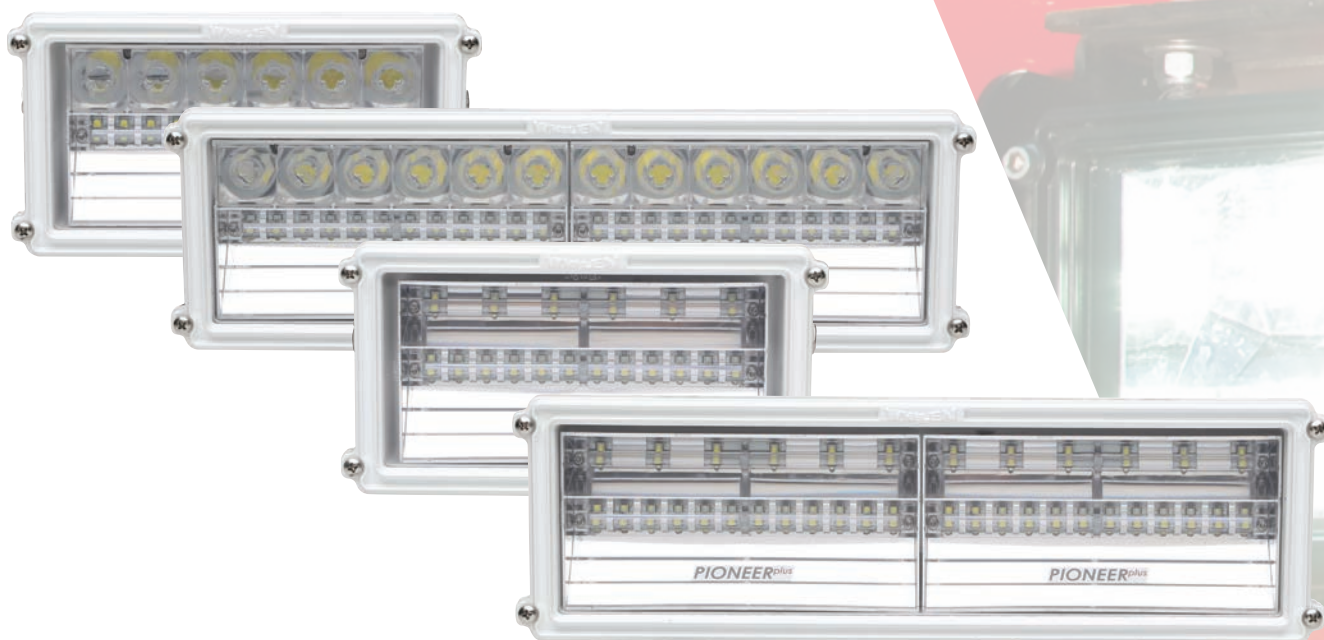

40° x 20°

Light Spread

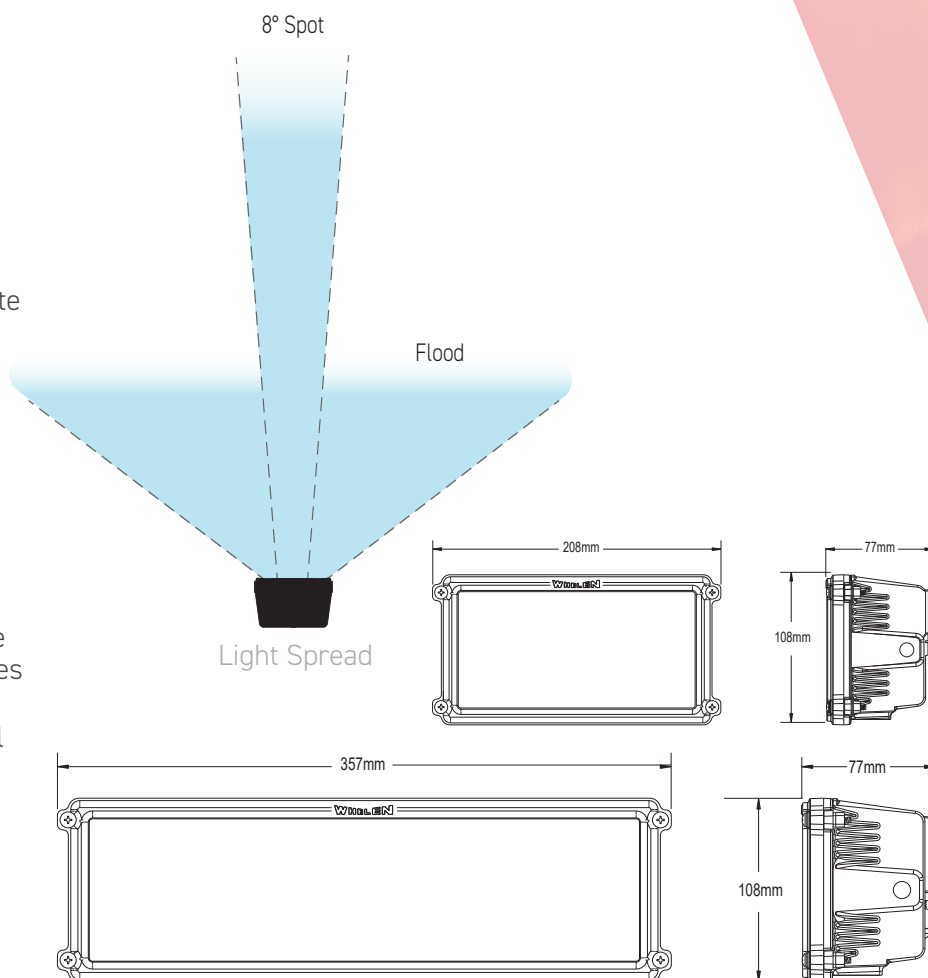

Pioneer Plus™

R10 5YR 12 24 120 IP67 UL

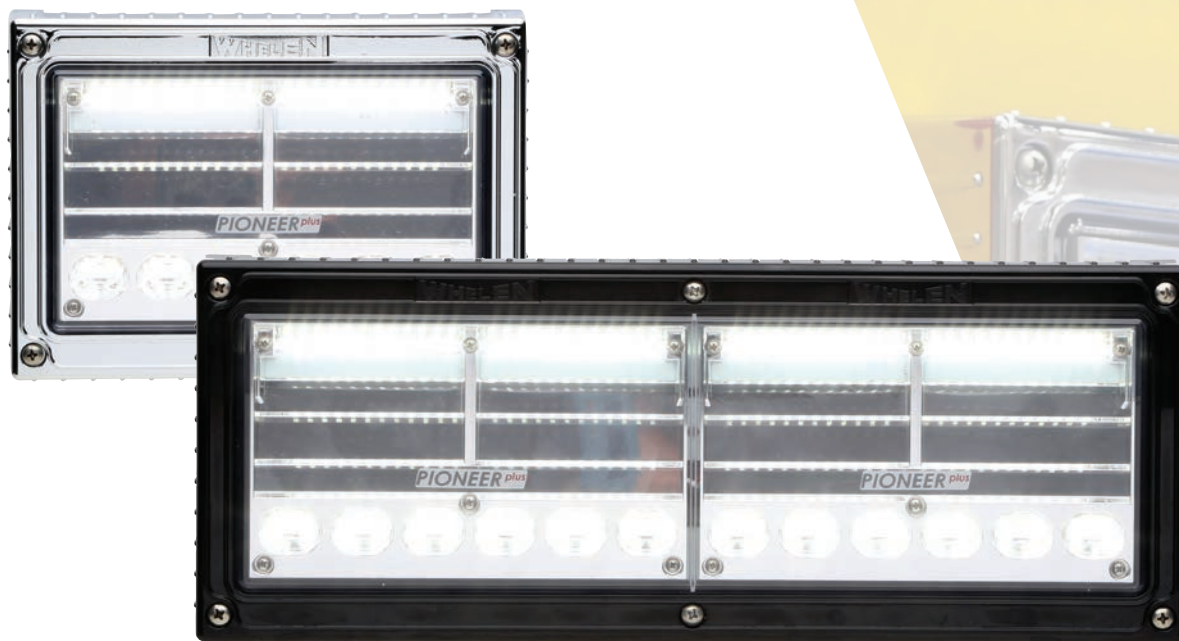

Features

- ▶ Available in single and dual models
- ▶ Pioneer Plus Combination Floodlight/ Spotlight features Proclera® Optic Technology
- ▶ Injection molded polycarbonate lenses are impact resistant and hard-coated
- ▶ Die-cast aluminum powder-coated housing in Black or White
- ▶ Solid-state electronics
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Powder-coated stainless steel bail bracket
- ▶ DC models includes 6,100mm cable, AC models include 310mm wire leads

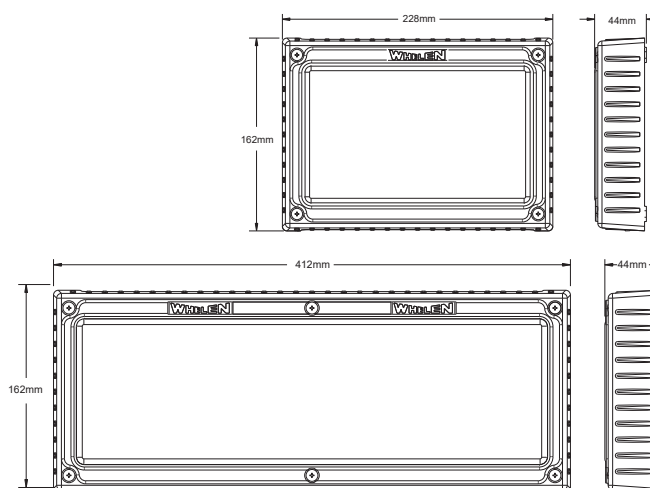

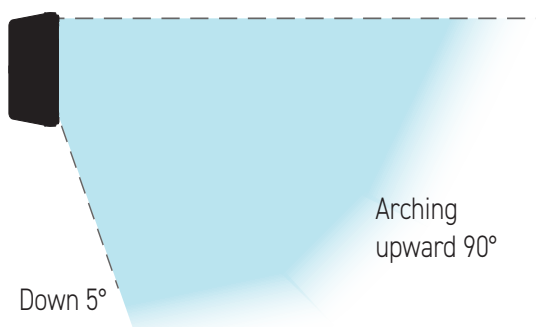

Pioneer Plus™ Surface Mount

Features

- ▶ Available in single and dual models
- ▶ Injection molded polycarbonate lenses are impact resistant and hard-coated
- ▶ Die-cast aluminum powder coated housing in Black or White
- ▶ Solid-state electronics
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Includes 610mm cable
- ▶ Surface mount:
 - Requires no body cut-outs
 - Built-in nylon screw grommets eliminate galvanic corrosion
 - Uniquely designed silicone grommet seals the 25.4mm wire entry into the body
 - Available with Chrome or Black flange

Light Spread

Perimeter Enhancement Light

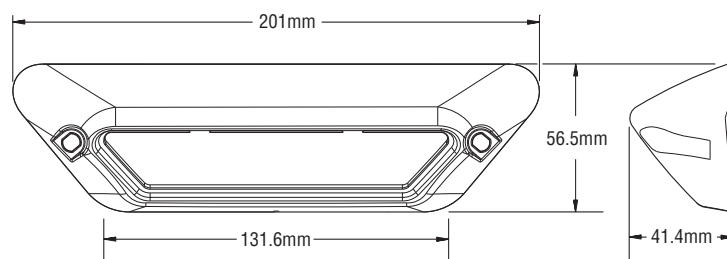

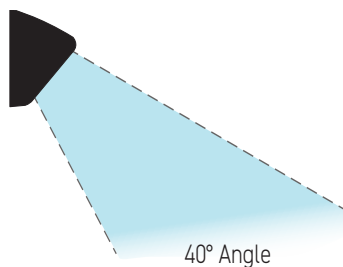

R10 5YR $\angle 12$ $\angle 24$

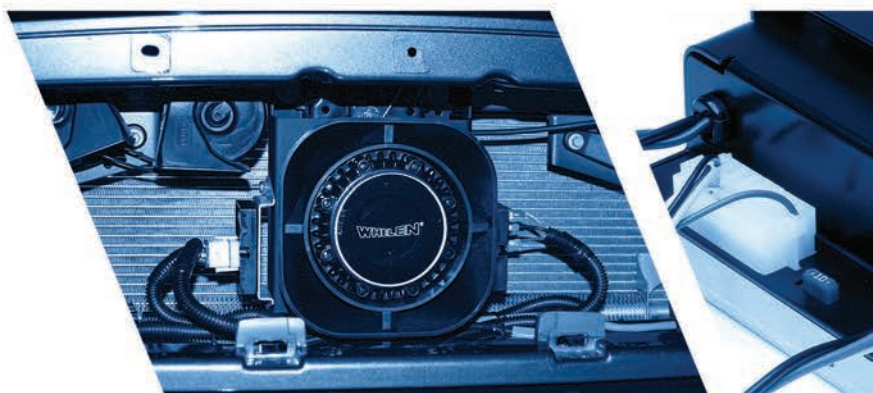

Features

- ▶ Six diode Super-LED® module
- ▶ LEDs are instant On/Off, eliminating ramp up time and high current inrush
- ▶ Correlated Color Temperature (CCT) of 5,700° kelvin simulates bright midday light
- ▶ Light is projected downward at a 40° angle
- ▶ Chrome, Black, Red, Amber, or White polycarbonate housing
- ▶ Supplied with 150mm pigtail

Light Spread

Sirens & Speakers

HHS3200 & HHS4200

R10 2YR 12 24 100 200 FREE

Features

- ▶ Windows® based programming software for full customization and configuration
- ▶ Three control heads available
- ▶ Nine 10 amp relay outputs
- ▶ Compatible with low current or high current products, or any light with a built-in flasher

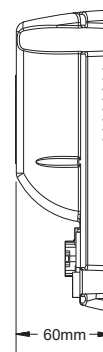

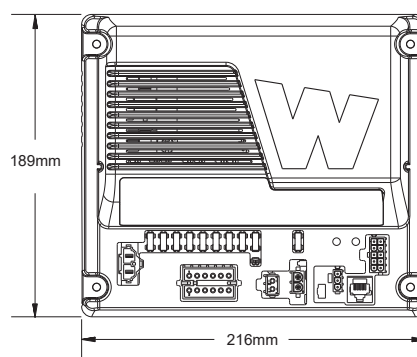

3200

4200

Amplifier Module

- ▶ Durable Black molded housing
- ▶ Wail, Yelp, Piercer, Manual Siren, and Airhorn tones are preset standard
- ▶ 65 total tones, including mechanical tones
- ▶ Includes 7m interconnect cable
- ▶ External spade-type fuses

- ▶ Includes WeCan® port that supports WeCan lightbars, or WeCan external amplifier

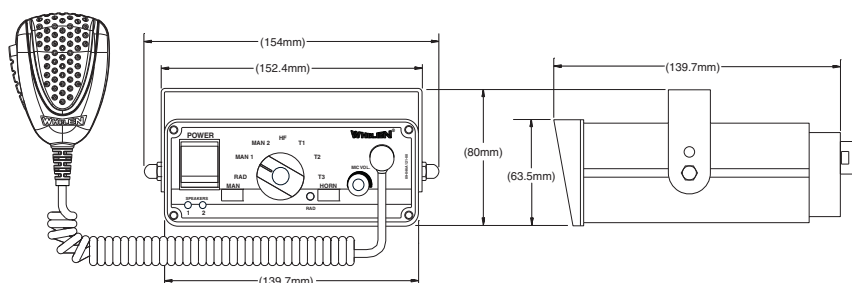

295 Series Electronic Sirens

R10 2YR 12 24 100 200 FREE

Features

- ▶ Combination On/Off and horn ring transfer switch
- ▶ Solid-state over/under voltage shutdown and output short circuit protection
- ▶ Input polarity protection
- ▶ Models available with SI TEST®, a silent, self-diagnostic indicator of siren or speaker failure
- ▶ Recess or bail bracket for under dash mounting. Adjustable bail bracket allows mounting in a variety of positions

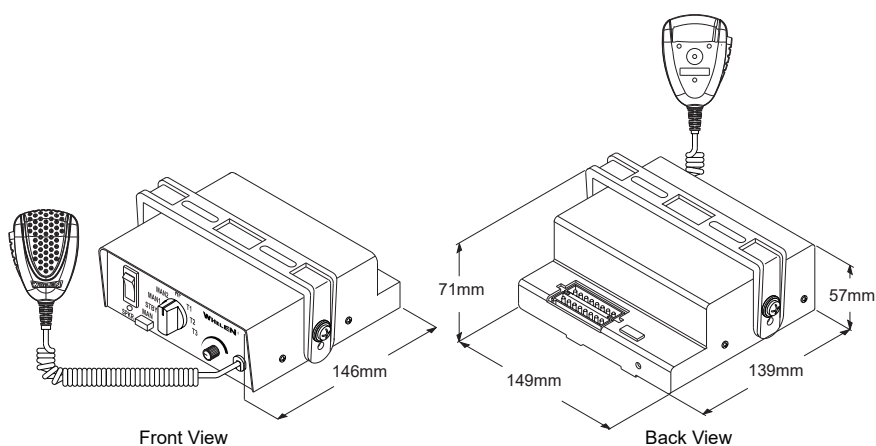

Epsilon™ Series

Features

- ▶ Seven position rotary switch
- ▶ Includes SI-TEST®, a silent, self-diagnostic indicator of siren or speaker failure
- ▶ Front of unit provides a PA volume control knob for the noise-cancelling microphone, On/Off switch, manual button, and seven position rotary switch
- ▶ Pre-wired with quick disconnect plug
- ▶ Short circuit protection
- ▶ Programmable outputs

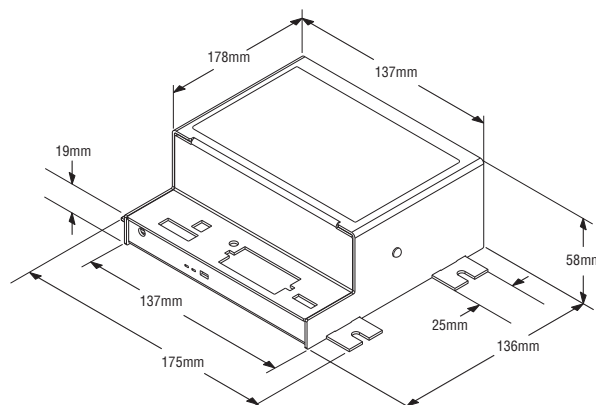

Beta™ Siren Amplifier

R10 2YR 12 200 FREE

Features

- ▶ Public address and radio repeat functionality
- ▶ PA override in all functions
- ▶ 16 Siren tones available, including Wail, Yelp, Piercer, High-Low, B-Wail, B-Yelp, B-Hi/Low and AirHorn tones
- ▶ Conveniently accessible dip switches on remote amplifier allows instant configuration of eight modes of operation
- ▶ Pre-wired with quick disconnect plug

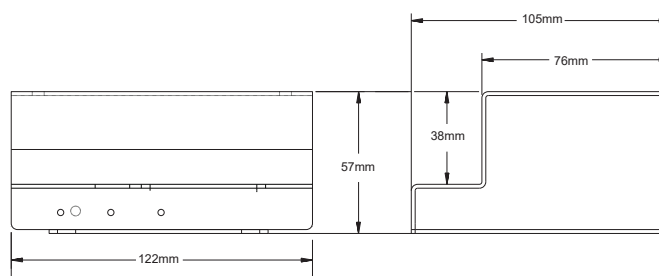

Euro Siren Amplifier

R10 2YR 12 24 200 FREE

Features

- ▶ Control siren tone through horn ring or separate switches
- ▶ Harmonically rich composite Airhorn tones
- ▶ Output open/short circuit protection
- ▶ Easy installation. Pre-wired with quick disconnect plugs for easy service and fast replacement

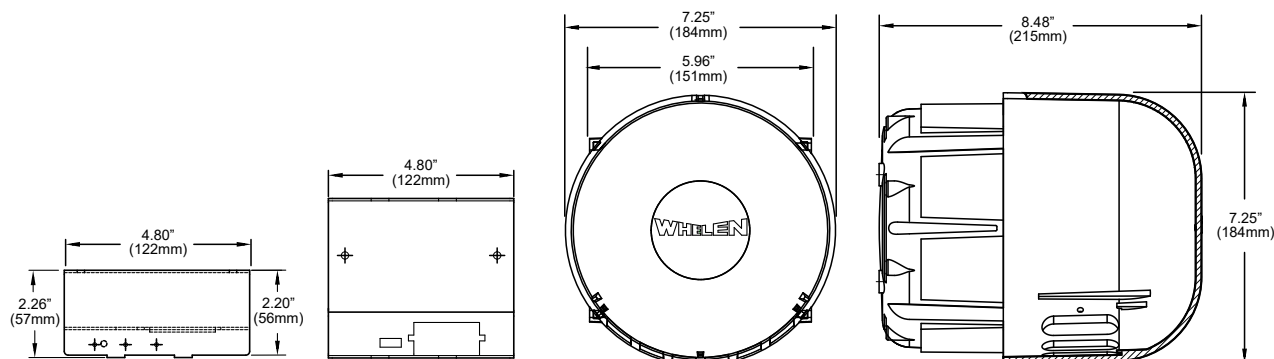

Howler™ Siren System

R10 **2YR** **12** **24** **100** **200**

Features

- ▶ Low frequency siren and speaker system
- ▶ Provides deep tones to penetrate other vehicles
- ▶ Howler is an add-on to any 100/200 watt siren amplifier and is not a replacement to the vehicles primary siren
- ▶ Uses low frequency tones to synchronize with the vehicles primary siren tones
- ▶ Works with any sweeping, Hi/Low, or electronic mechanical tones generated by the primary siren
- ▶ Certain vehicle models may utilize single or dual speaker systems

NASCAR® Whelen Euro Series

NASCAR Whelen Euro Series

For over 25 years, Whelen has supported NASCAR and its grass-roots racing series in the United States. Since 2013, we have been proud to sponsor the NASCAR Whelen Euro Series. This dynamic

and exhilarating series features full-bodied stock cars racing on historic road courses and ovals throughout Europe. We are also proud to provide the Official Warning Lights of NASCAR.
